HIGH QUALITY PEOPLE

Providing high value technical services is now the main focus of our management. We work closely with our client to determine the best outcomes for all parties thus creating an open and easy working relationship, whilst maintaining our attentive service to our consultants. We have the track record of accomplishing this to date and have the resources and know how to continue in our projected expansion.

WHY US?

Trainor Consulting has worked for over 20 years with the Oil & Gas, and Petro-Chemical industries.

EXPERIENCE IN OIL & GAS PROJECTS

Our database of consultants has grown to contain an extensive and varied pool of professionals, engineers, and technical specialists that are employed in the short and longer-term operations/project type work that Trainor Consulting has been involved in.

Our consultant team consists of members who have been carefully selected, and screened to meet the highest professional standards within the industry.

Our experience and resources has given us the ability to provide the right mix of international and locally experienced consultants to form the most efficient teams.

*We look after our Consultants,
Our Consultants look after you.*

*International database
With over 30 000
high qualified individuals*

UNIQUE AND HIGHSET QUALITY
of service for both Clients and
Consultants

- Work Visa, Work Permits
- Logistic arrangement support
- Comprehensive insurance coverage
- Fully compliant tax liabilities

COMPANY HISTORY

Trainor Consulting was formed in 1995 after an amicable employee buyout of the training division of ABB Industries AS of Norway.

Trainor Consulting continued to expand its training and contracting business in Asia mainly in the oil and gas upstream and downstream fields. With 17 years prior experience within ABB (30+ years Total), Trainor Consulting was well prepared to enter the market.

Trainor Consulting started its Asian business arm in China in 1995, and incorporated an independent office in Hong Kong in June 2000.

With a solid background in technical, management, and safety training, Trainor Consulting expanded into the Consulting Services, Management and Technical Services business in 1998.

We are always looking to support our past and current clients and are positive about expanding to meet their requirements.

Our guidance and expertise safeguard lives and assets
